

May 18, 2015

Patterson Tubular Services (PTS), an RPC, Inc. company, is pleased to announce that Vince Stewart has accepted the position of director of operations for our facility in Channelview, Texas. In this role, Vince will direct all operational, safety and sales efforts, as PTS continues to lead the nondestructive testing industry.

Vince began his career with RPC, Inc. as a dispatcher for Patterson Truck Line in Alice, Texas in 1981. He transferred to the Channelview facility in 1983 and continued working for the truck line until 1986, when he transferred to Patterson Tubular Services. During his tenure at PTS, Vince held the following positions:

- Yard crew supervisor
- Shipping and receiving coordinator
- Inside sales and service coordinator
- Inspection coordinator
- HSE inspector
- Senior service coordinator
- Yard manager
- Assistant location manager
- Director of finance and administration

In 2001, Vince transferred to RPC, Inc. as the director of customer delivery services. Most recently, Vince led the team that delivered the new PTS billing and software system (TDSW). He leaves RPC as the current group vice president of demand management and business alliance.

Vince is looking forward to renewing old relationships and cultivating new ones with our valued customers; growing Patterson's service lines; and taking a proactive leadership role of our Channelview operations. If you would like to send Vince a welcome note, he can be reached by e-mail at vstewart@patterson-tubular.com, or by phone at (281) 247-7943.

Please join PTS in welcoming Vince Stewart back to our operations team.
